Attention: Mr Buck Tuppenny

Dear Buck

SASOL ALPHA OLEFIN RISK ANALYSIS

It is now some time since we last met. On that occasion you presented the final report on the Alpha Olefin Plant Process Risk Analysis.

We have found this risk analysis to be of major value in assessing the risks of commercialization. We have evaluated each of your recommendations and have initiated action plans where necessary to minimize the process risks.

May I take this opportunity to thank you and your team for your input on this subject. I hope we have the opportunity to meet again in the near future.

Yours faithfully

J N MARRIOTT
MANAGING DIRECTOR
