Dear Hugh

GAS UTILIZATION OPTIONS AND ALTERNATIVES IN SOUTHERN AFRICA

This note is designed to express our appreciation for the effort you have put into completing the Basic Assessment phase of this study. The quality of work has made this assignment well worth while.

The methodology, as well as the research of the techno economics of the special project user market, and the strategic implications for CEF, SOEKOR and other gas field owners, has provided us with a strong basis for determining the future direction of the organization.

We look forward to utilizing some of your skills in the implementation of the outcome.

Yours faithfully
