Sasol Olie (Edms) Beperk
Sasol Oil (Pty) Limited
Reg. No. 81/07622/07

15 October 1996

To whom it may concern

Work done by Hugh Brown & Associates

During the period October 1995 to January 1996 Hugh Brown and Associates were commissioned to develop a computer model depicting the South African gas market. The model uses information from the Sasol Gas Market Research database to determine the consumption ramp-up of the various geographic markets, taking into account :

- Gas prices, alternative energy prices and market growth;
- Gas sources;
- Baseloads;
- Transmission pipelines.

The model was successfully implemented, and the appropriate back-up was provided.
